

Tailor - Made
**BASEMENT
STORAGE
SOLUTIONS**

**FOR RESIDENTIAL UNITS
AND OFFICE BLOCKS**

We specialise in the supply and installation of premium storage units, and lockers, designed to meet your unique needs.

Residential units, office towers and commercial buildings all need to maximise internal space, and the basement is most often under utilised.

If you want to explore basement storage options, *we invite you to call us to **Book a site visit for a complimentary basement solution proposal.***

**Self Storage Association
of Australasia**

PREMIUM BASEMENT SELF STORAGE

Janus International is the global leader in self storage solutions. We have over 30 years experience and expertise in design, manufacture and installation.

Our premium basement self storage offers a secure, attractive and ultra-reliable solution for tenants living in unit blocks and working in office facilities

ENHANCED SECURITY

Each storage unit or locker is equipped with security mesh or burglar bars, providing extra protection for valuable belongings.

INNOVATIVE SOLUTIONS

Our innovative solutions include our access control technology and maintenance services.

We help clients in Australia and New Zealand become more efficient and profitable by redefining the customer experience and delivering beyond expectations.

BASEMENT LOCKERS

Property managers can fit lockers into unused spaces, providing tenants with complimentary or rentable access to secure storage.

SMART LOCKING SYSTEMS

Choose the Noko One electronic smart lock to ensure a secure and easy-to-use solution for accessing stored items.

HIGH GLOSS PARTITIONS

Our high gloss, high tensile corridor partitions are durable, secure and quick to install. Bright and modern, they integrate easily into any facility layout.

LOCKS AND LATCHES

For a traditional solution the ergonomic design of our locks and latches provide minimal corridor intrusion for simple access.

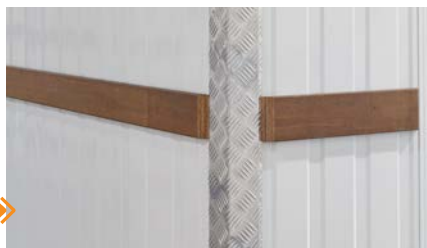

ROLLER DOORS

Our roller doors are tough, secure and ultra reliable. Available in a range of colours and sizes they are very durable and require minimal maintenance.

SWING DOORS

High quality, single or double flush doors, provide a clean and consistent look. They are easily installed, with no sharp edges for a smooth, contemporary finish.

CORNER PROTECTORS

Corner protectors can be fixed at part or full corner height. Square, round, shallow, or deep-mitred profiles are available for any turning radius required.

CHEQUER PLATE

Aluminium chequer plate fitted in high traffic areas protects walls and corners from damage. They come in a range of sizes and are easily replaced if needed.
